

## **Nursing Students**

North Carolina schools of nursing can offer their students a certificate of completion for state-approved Nurse Aide I training.

A memorandum of understanding (MOU) exists between the North Carolina Division of Health Service Regulation (NC DHSR) and the North Carolina Board of Nursing (NCBON). The MOU gives the NCBON the authority to identify those nursing programs that meet the state requirements for Nurse Aide I training.

Nursing students who receive a certificate of completion for Nurse Aide I training are eligible to apply for the Nurse Aide I state-approved competency examination.

Approved nursing programs must meet the same requirements as other state-approved Nurse Aide I training programs in North Carolina.

Students should contact their School of Nursing for more information.
